

DUNG DE-WATERING MACHINE

Model	PTF - DWAT - 5
Machine Dimensions	7.25 x 2.30 x 5 Feet (L x H x W)
Gear-Box	5 HP – In- line Helical Type Make - Rotomotive
Motor	5 HP – 3 Phase Make - Rotomotive
Couple	Chain Sproket with Hardened Chain
Slurry Pump	2 HP Slurry Pump Make - Lubi
Material of Construction	Base – Made from M.S. “C” Channel, Compact and Efficient Design Screen and Screw - STAINLESS STEEL GRADE - 304 Bearing – NTN JAPAN / SKF
Starter Panel	Metal Box Schneider / L & T make with relay Voltage and Ampere meter
Pipe	INPUT PIPE - SOLID GREEN PIPE (75 MM) - 10 METER OVERFLOW PIPE - WHITE CANVAS PIPE (75 MM) - 10 METER WATER DISCHARGE PIPE - SOLID GREEN PIPE (75 MM) - 1.5 METER
Output Material	Dry Material contains approx. 25 to 40% Moisture (Cow Dung) It varies according to input material - Biogas Slurry, Poultry and Vegetable waste Output – 200 to 600 Kg fibre per Hour (depending on input material fibre content)

Manufactured By
PATEL TRUNK FACTORY
 Near Amin Auto Agency, Besides Jalaram Pulse Mill,
 Anand Sojitra Road, Anand - 388001 Gujarat, INDIA
 Ph +91- 9825607574 pateltrunk@gmail.com

PRODUCTS MADE FROM SEPARATED MANURE POWDER - 25 -30% Moisture

Organic Fertilizer

Separated Powder is sun dried and used in

Cones

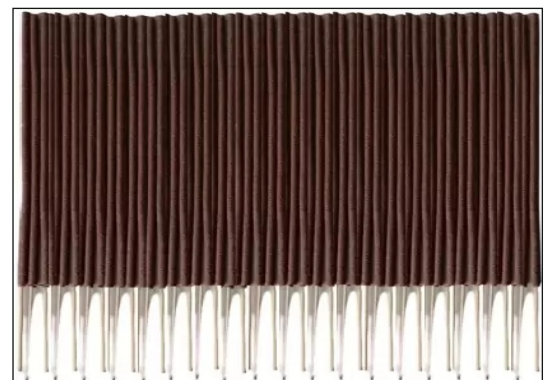

Dhoop

Idols

Mosquito Coils

Agarbatti
